Construction for new screened in porch begins

The construction was performed by Marc, Bart and Art Gilchrist
Art has since passed, he was a true "Mountain Man"
Most all of the wood used for the porch were trees the day before
They were cut and milled by one of Art's friends

Marc built our new outhouse

Built and installed tree house for sip line 7-6-1997

Water pump and trailer in 1998 instead of hanging water in tree

Dwane McGlothin (Me) and Ken Sturges last Deer hunt.

Normally Ken and I would hunt early morning and late evening and this day was no different. Except, we decided to go down to Henry's (Art Gilchrist) before we headed out in our afternoon hunt. We had a couple of glasses of wine and then Art says, let's go hunting! So with Art driving my Blazer, we head out to the backside of his property. Eventually we came to this small clearing, we get out and look around and then Art starts hollering and here comes the deer right up to our vehicle, 3 or 4 bucks and a couple of does. Art says "ok, shoot a couple and then let's get on with some serious drinking". Ken and I look at each other, laydown our guns and started drinking! See photo below!
